Band: Anna und Peter

Titel: "Little steps"

Don't take my imagination from me
'cause I can move mountains while you count to three
could also break down the london bridge if I'd like
Maybe I'm too weak to terrify and my voice is too soft to tell you reasons why
I still hold on when my chances of winning look too self-defeating to launch a strike

Give me shelter, hold me in your arms
but please leave me my liberty
Point out my flaws, my misdeeds
so that I may learn from them
but please have patience with me
Little steps start a big journey

Size hasn't got only one type of measurement
My angles of vision know no dead end
It's just a matter of the view I emphasize
You may say I'm too small, still too naive for this world
and if I grow up my perception won't be blurred
but if you could see what I see
then you wouldn't solely believe your eyes

Give me shelter, hold me in your arms
but please leave me my liberty
Point out my flaws, my misdeeds
so that I may learn from them
but please have patience with me
Little steps start a big journey
